Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 4, there is no antecedent basis for "said motor" and, it is unclear if the dependency is incorrect or if "said motor" should be --said linear actuator--. Appropriate correction is required.

Allowable Subject Matter

Claims 1-3 and 5-7 are allowable. Claim 4 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. The prior art of record does not disclose or make obvious a separation nut comprising an operator assembly, to allow the nut segments to release, including the rotor, stator, control ring, bearings and actuator configured as claimed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
